When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.

If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.

A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices, do not require to be lured back by catchpenny reductions.

TELEGRAMS

(via Galveston.)

Berlin, May 15th—The fears of a possible European conflagration are disappearing. The critical position in which several Cabinets are placed by the discussion of the war estimates has convinced the nations that a war under present circumstances would be too costly, and that it is better to make every effort to preserve peace. It is probable that the Bill for increasing the army and meeting the cost with the taxes on spirits will not be presented to the Reichstag till Autumn. It is said that a tax on newspaper advertizements will also be imposed to help to meet the cost of the increase in the army.

Paris, 15th—Immense interest has been excited all over France by the discovery of the *Journal de l'Exile* of Victor Hugo, together with almost a million of letters addressed to the great poet by eminent public men and political refugees in all parts of the world.

The sale of the celebrated collection of pictures by Dumas the painter has produced in two days over £20,000.

Saint Louis, (U. S.) 15th—A sudden rise in the waters of the Mississippi and Missouri has caused great floods along the banks of both rivers, and the damage is enormous.

Havana, 15th—The importers here have decided to sell for gold only in future, and to have nothing to do with paper money.

Vienna, 15th—The Bill for reforming the currency proposes to convert in gold, and to reduce the interest on the Public Debt to 5 per cent in paper.

Washington, 15th—Senator Harbour of Virginia died yesterday.

Cairo, 15th—A band of dervishes has attacked Serra and killed 34 natives.

Riga, 15th—The Czar has presented Captain Spencer of the steamer Conemaugh (?) which brought food from the United States for the starving peasantry, with a magnificent service of solid silver.

Paris 15th—A terrific explosion of dynamite took place this morning in the offices of the "Grands Mines" Company. Nobody killed or wounded.

Since the new tariff came into force, the discounts of the Bank of France have fallen off by 500 millions of francs, in the past four months.

Rome, May 16th—King Humbert approved to-day the appointment of the new Cabinet. It is understood that the new ministerial evolution will be merely temporary and will pave the way to the return of Crispi.

St. Petersburg, 16th—The police have discovered a vast plot to blow up the Gatschina Palace of the Czar. Several mines, of several kilometres in length, were found beneath the Palace.

Athens, 16th—The general elections resulted in the triumph of Tricoupis

Paris, 16th—The *Times* is preparing to issue a daily edition in this capital.

Berlin, 16th.—Professor Leydenstates that he has discovered in the appliance of red-hot irons an effective cure for hysteria.

Cabul, 16th.—The Ameer has abandoned the city and fixed his residence in the country parts.

Paris, 16th.—The Pope's advice is having effect in the Ardennes where clergy refused blessing to a banker on the plea that he held in deposit imperial funds; the clergy declare the Eagle a seditious emblem.

London, 16th.—An Atlantic liner ran into a craft from Castletownsend which went to the bottom with all aboard.

Vienna, 16th. — The Franco-Russian Syndicate offers to complete the projected Trans-Siberian railway. Prince Vladimir favors the proposal.

THE CONVALESCENT HOME.

This benevolent institution has completed its third year, and we have before us the report which will be submitted at the annual meeting to be held to-morrow. The report does not give any figures as to the number of convalescents admitted during the year, but says that the proportion of poor persons was greater than in previous years.

The balance-sheet shews thus:

Expenditure.

	$ currency.
Wages	5,495
Food, etc.	3,928
Total	9,123

Receipts.

Subscriptions	2,182
Fees	2,266
Interest	2,807
Total	7,255
Deficit	1,868
	9,123

This shews that the Home was worked last year at a loss of $150 a month. The endowment fund at 1890 was $9,385, and is now reduced to $7,516 currency.

The assets of the institution comprise as follows (reducing gold to paper at 330):—

	$ currency.
Furniture	12,800
House-property	51,480
Bills and cash	47,310
Total	111,590

The liabilities are as follows:—

	$
Transfer account	42,600
Founders' subs	60,440
Sundries	1,034
	104,074
Surplus	7,516

The comparison of income and expenses with the previous year shewed thus:

	1890.	1891.
	$ currency.	$ currency.
Income	8,388	7,255
Expenses	7,108	9,123
Surplus	1,280	...
Deficit	...	1,868

The report of the Committee is as follows:—

The Committee of Management beg to submit to the subscribers and donors their Third Annual Report corresponding to the past year of 1891.

While thanking those whose generosity largely provides for the rest and comfort taken advantage of by so many of the community, the Committee regrets to report that for the first time in its history the Home has failed to meet its year's expenses with its year's income. The year 1890 showed an excess of income of $1,279 currency, while 1891 shows a deficit of $1868 currency, or as compared with the former year, a falling off of $3,148 currency. A detailed comparative statement from the Hon. Treasurer shews the receipts and expenditure during 1890 and 1891, and although there has been an increase in the expenditure of no less than $2,015 currency, this is due exclusively to the depreciation of the circulating medium.

The Honorary Medical Officer's Report shows how considerable are the benefits derived by those who have been inmates at the Home during the past year, especially by the free patients, who under ordinary circumstances, would have been deprived of the advantages the Home offers.

The Committee found it desirable to introduce certain improvements during the year to perfect the sanitary arrangements, and the establishment has been thoroughly revised and the best technical opinion taken, and a complete system of drainage has been most effectively carried out under the design and direction of Mr. Basset Smith.

The superintendent and matron have both contributed largely to the comfort of patients, especially so as there is always a difficulty in obtaining efficient domestic assistance. The buildings have all been carefully maintained, and are in good order; sundry comforts have been added to the internal arrangements, and the stock of linen and other necessaries sufficiently increased so as to provide for all demands. The grounds and gardens have been also carefully tended, and every effort has been made to keep the entire property on a thoroughly good footing. In view of the depreciation of the currency, it was considered necessary to raise the fees for paying patients, but as the increase apparently deterred many from coming to the Home, who otherwise would be thankful to take advantage of a rest there, it was determined to reduce charges to $3.50 currency for 1st class patients, and $1.50 for second class patients per diem.

The Committee gratefully acknowledge the services of Dr. Dodds of Lomas, who from time to time has been called to attend urgent cases, where it has been impossible for the Honorary Medical Officer to be present; also special acknowledgment is due to those who have kindly sent supplies of newspapers, magazines, etc.

The Committee again invites subscribers to extend their liberality to the funds of the Home, and to assist in such a manner that many new names will be added to the roll, so that there may be during 1892 an excess in the income rather than a falling off.

In order to vest the property in its own corporate capacity, steps are being taken to establish the legal status or "personeria juridica" of the Home, and there is every reason to believe that no difficulty will be experienced in attaining such a desirable result.

Dr. Mackern's report is as follows:—

I have the honour to submit my Third Annual Medical Report in connection with the Victoria Convalescent Home.

I am glad to say that as the Home and its advantages become better known, its sphere of usefulness increases steadily. We have had this year a much greater variety in the class of cases, and the proportion of utterly poor has also been higher, and these facts prove that the Home is rapidly reaching the position of a truly Charitable Institution, which it was intended it should occupy by its Founders and Subscribers.

The two cases of enteric fever at the Home in December have been fully dealt with in my report to the Committee, and it only remains for me to assure the subscribers and the general public that the new system of drainage, which is now completed, is in every way the most perfect and the most modern. An analysis of the drinking water was made by your order, and I am glad to say it was pronounced to be of the "best quality for drinking purposes" by the City Analyst. I can assure you now, Sir, that the Home has not been in better working order since its establishment.

I remain, Sir,
Yours faithfully
George Mackern, M.D. Lond.

THE NEW BANK DIRECTORS.

Nothing could more strikingly show the decadence of the two great banking institutions of Buenos Ayres, the Provincial and the Mortgage Bank, than the very slight interest taken in the nomination of the new directors. There was a time when every newspaper in the city had its reporters on the "qui vive" to find out the new boards; and more attention was attached to the names of the new directors of the Provincial Bank than even to those of the Senators or Deputies of the Province. Last week the Government named the new boards, yet, beyond a mere list of the names, not a paper in town alluded to the matter. What a melancholy sign of the times we live in? And yet there are people who hope to see the Provincial Bank again on its legs. It may be so, but we doubt it; public apathy is an unnrering sign of decay. No one seems to care who figures on the board nowadays; nevertheless, if Governor Costa thought proper to strike out afresh and do something to revivify the Provincial Bank he could not have had a better opportunity than in the reconstruction of the board. We want some of the old men who once figured at the Bank to resume their seats at the round table. It might be invidious to mention names; but although the Governor is a very young man, he must at least have heard of the merchants and capitalists who in former years so ably directed the fortunes of the Provincial Bank, many of whom are still to the good, and who, if asked, might be willing to lend their services again on behalf of so time-honoured an institution. As regards the Banco Hipotecario we fear the decomposition of this once flourishing institution is too grave for any resurrection. It matters little who is named to the board, since the bank is moribund and the present heavy liquidation going on is but hastening it to its inevitable end. All the good properties are being redeemed and mortgages paid off, and soon the unfortunate holders of Cedulas in Europe will be convinced of the fact that their Cedulas really represent nil. No new board of directors, no matter if composed of the very best men in the country, could now save this doomed institution. But it is not so with the Provincial Bank, and many cling to the hope that with a good board, composed of Argentine and foreign merchants, its fortunes might be restored, and the great colossus of the province put on its legs again.

THE ELBE MAILS.

LATEST FROM ENGLAND.

London, April 23rd.

Mr. Goschens introduced his Budget in the House of Commons on April 11. There is nothing very brilliant about it, but it is generally admitted to be thorough, sound and statesmanlike. In a year when, from various causes, trade has suffered severe depression, a realised surplus of £1,067,000 is no small source of satisfaction. The estimate of revenue for the year on which we have now entered is £90,417,000, while the expenditure is reckoned at £90,253,000 leaving a surplus af £224,000. The receipts for the past year bear striking testimony to the exactitude of Mr Goschen's forecasts, for, though the realised surplus exceeded a million, this was due partly to an abnormal and unexpected increase under the head of the death duties, and partly to the savings effected in expenditure. The Clearing House returns for 1891 shew a decline, not only compared with those of 1890, but even compared with those of 1889 and 1888. On the other hand, the statistics of bills of exchange and other indications of sound and solid business are not unsatisfactory, and the railway returns are by no means discouraging. The consumption of the most productive dutiable articles has relatively, though not positively, met with a check, except in the case of tea, which has been steadily augmented from year to year, through all changes of national prosperity and financial policy. The "rush to alcohol" which gave Mr. Goschen and his predecessors so many surpluses has been decidedly stayed.

∴

The Chancellor of the Exchequer keeps well within the bounds of probability in estimating the public income for the year, and does not expect too much of the revenue. The most serious loss is under the head of income tax, which Mr. Goschen deems right now to fix at 470,000*l.* lower. Mr. Goschen surprised the House by stating that the aggregate profits of the cotton manufacturers are less than those of the medical profession, and the aggregate profits of the coal owners are less than those of the legal profession. Again, the large class of employés, whose salaries are still less affected than those of medical men and lawyers by the state of trade, represent an assessable income of 50 millions. And there are branches of business which as yet, at all events, have not suffered heavily. These are the principal changes in the revenue raised by taxation. In the non-tax revenue Mr. Goschen reckons upon a further increase in the Post Office receipts of 250,000*l.* and in the telegraph receipts of 80,000*l.*, and takes the miscellaneous receipts at 2,100,000*l.*

∴

Substantially, Mr. Goschen's Budget leaves his surplus untouched. It is too modest to admit of doing anything for the relief of the taxpayer. Considering that he had no startling announcement to make and no attractive prospects to unfold, he contrived to make his Budget speech interesting and instructive. One important point is the value of the Suez Canal shares owned by the State, which were purchased for four millions sterling, on which 5 per cent. has been since regularly received, which will obtain full dividends from July, 1894, and then, representing a capital valuation of nineteen millions, will furnish the means of paying off the money borrowed for the defences.

∴

The Budget of London is only less in importance than that of the nation, and it has been received with anything but satisfaction. The sum falling on the rates for the year ending March 31, 1893, exceeds the amount for the past year by 114,500*l.* The burden to be borne has been so augmented as to require a rate of 12 pence in the pound, in place of 11 pence. The entire expenditure of the County Council for the ensuing year is not far short of 3,000,000*l.*

∴

At the Widnes Police Court, on April 11, Mr. Paxton, of Liverpool, acting for the Public Prosecutor, applied for a warrant for the apprehension of Albert Deeming, for the murder of his wife and four children, at Rainhill, on or about July 27, 1891. The court, however, was adjourned for half-an-hour, in order that Mr. Paxton might read the depositions taken at the inquest. Mr. Paxton, on the court resuming, said that the application was made under the Fugitive Offenders Act, 1881, under which for an offence committed in England, the punishment for which was over twelve months' hard labour, the offender could be brought back to any of Her Majesty's possessions, and charged there with the offence. Deeming had been arrested at Melbourne, and charged with murder near that place; there was no doubt he was the same man who was suspected of the Rainhill murders. Of course, if he was convicted in Australia, the warrant would not be required. In the event, which did not appear probable, of his getting off in Melbourne, it would be the duty of the Public Prosecutor to have him brought back to this country and charged with the Rainhill crime. Alfred Deeming, the brother of the accused, Inspector Pattinson, Sergeant Chipchase, Dr. M'Lennon, Mrs. Alfred Deeming, Robert Grayson, Mrs. Hays Edward Rowlands, Catherine Lally, and Mrs. Mather, the last named of whom had to be accommodated with a chair, had their depositions read over to them, and each swore to the correctness of the record. The further consideration of the application was then adjourned until next day for the attendance of Richard Hackett who carted Deeming's box to St. Helen's Station, when the warrant was granted.

∴

Sir Michael Hicks-Beach and Lord Cork responded on April 13 to the toast of the "Imperial Parliament" at the annual banquet of the Bristol Incorporated Chamber of Commerce and Shipping. Sir Michael Hicks-Beach said he feared there was some ground, as President of the Board of Trade addressing members of a Chamber of Commerce, for gloomy anticipations of the prospects of the coming year. He did not like this continued decrease in our exports, now lasting, he was afraid, for months. What was the cause of that decrease? He had endeavoured to discover whether it was caused by the prohibitive tariffs of other countries by the light of a tariff of great importance—namely, the M'Kinley tariff in the United States—and they would remember when that tariff was first carried, both its supporters and its opponents were at one in this view of it, that it would practically prohibit the importation into the United States of manufactures competing with the manufactures of the United States. He had taken the first three months of 1890, a time before the disturbing influences on trade of the commencement of the tariff could have begun, and the first three months of 1892, a time when the disturbing influences of the tariff and its commencement would reasonably have been supposed to have ceased. He found that taking these three months in 1890, and comparing with them the three months of 1892, our exports to the whole world had decreased by 7½ per cent, and our exports to the U. States had decreased by 10 per cent. This showed plainly that the influences of this particular prohibitive tariff could not possibly have exceeded more than 2½ per cent of our total volume of exports. This was to some extent a comforting reflection. The fact was that so long as we could manufacture cheaper here there were some, and a very large portion, of our products that foreign nations must have at any price, and the only effect of their prohibitive tariffs would be that they would have to pay more for them.

Mrs. Osborne still remains in Holloway Gaol, and her condition is described as satisfactory. A few days ago Captain Osborne joined his regiment in Edinburgh, but previous to doing so sent to the Home Secretary a number of statements by medical men as to his wife's condition, and the general effects bordering on hysteria to which she was subject. Meanwhile, Mr. Matthews requested special information regarding Mrs. Osborne's health to be furnished. The decision arrived at is to the effect that it will be advisable to release her just prior to her accouchement, which is not expected to take place for at least six or seven weeks. This intimation has not been made known to the prisoner.

In the course of a letter to a member of the London Russo-Jewish Committee, Sir William Harcourt has thus delivered himself upon the subject of the persecution of the Jews:—"I cannot but join with Mr. Gladstone and others in the expression of profound regret and condemnation of the treatment of the Jews in Russia. It is difficult for us in England to comprehend the spirit which inspires this course of persecution towards a race remarkable everywhere for its industry, intelligence, and good conduct. We have had long experience in this country of a people who are now admitted to the fullest privileges of citizenship; and it may be truly said that there is no class of the community who have shown themselves more worthy of the rights which they enjoy. This prejudice against the Jewish race (which prevails, I regret to see, not only in Russia, but elsewhere) is refuted by the knowledge we have of them in all classes of our society, where we recognise them as good friends, good citizens, and good subjects; and the disabilities and cruelties to which they are exposed seem to me not only a social crime, but a political blunder."

Lord Vivian, the new British Ambassador to Rome, presented his credentials to the King of Italy on April 13. The King received him with the greatest cordiality. His Majesty spoke several times of Lord Dufferin, the late Ambassador, and of the friendly relations existing between the two nations. The King preserves in the archives of the Palace the original letter bearing Queen Victoria's signature, and a copy of it is remitted to the Minister of Foreign Affairs. The usual presentations were afterwards made by the Ambassador of the *personnel* of the Embassy, Lord Vivian, was received by Queen Margherita on April 19th.

Brazilian affairs still continue to excite general attention on this side, and news is now to hand, by way of Lisbon, that an attempt is being made to bring about the secession of the state of Matto Grosso. The secessionists would be sure of encouragement from Paraguay and the Argentine, and it would be practically impossible for the Rio Government to send a coercive force into the disaffected State.

If Matto Grosso really determines to go in for Republican independence on its own account, the step will in all probability prove to be but the first in the direction of the transference of this not over-rich territory to one of the Southern Republics.

The results of the elections in the Argentine did not surprise anyone on this side, and it is now regarded as tolerably certain that Dr. Luis Saenz Peña will be the next President.

It is not surprising that the negotiations on the part of the Russian authorities towards securing a coaling station in South America should attract some attention on this side. A report is current here that the Uruguayan Government has been sounded for a site in that neighbourhood, and it is also stated that the Washington Government is anxious to get a similar concession in the South American direction. Coaling stations are extremely useful things to have in South America, particularly for the United States; but what Russia wants with a convenience of the sort it is somewhat difficult to see at the moment.

The announcement has just been made on this side of the arrest of the Conde de Leopoldina, who negotiated the loan intended for the construction of new railway lines in Brazil and the conversion of the bonds of the Leopoldina Railway Company.

A committee composed of people interested in the Leopoldina and other Brazilian railways has just been formed for the purpose of protecting the interests of the bondholders.

Mr. Arthur Herbert, the British Consul in Paraguay, has recently sent home a report on the trade of that country, in which the Consul points to the fact that the Germans are fast improving their trading hold in that part of South America. It is satisfactory, from our viewpoint, to note that the British capital invested in the Republic amounts to more than that of all the other European countries put together. Mr. Herbert has some useful information to give about the management of companies in Paraguay, which would probably apply to other countries in that part of the world. For one thing, these concerns are for the most part directly controlled in their operations by the London board, which necessitates much delay, to say nothing of the ignorance of directors regarding local affairs. (For Paraguayan read Argentine.)

Mr. Kennedy, the British Minister to Chile, arrived at Plymouth, in the Sorata, on April 19th., having come home on a well-earned leave. Mr. Kennedy acted with much tact and foresight during the revolution in Chile last year, and it is probable that he will be given some titular distinction in the forthcoming Birthday List in recognition of his services.

The revolutionary trouble in Venezuela has by no means ended, and the latest advices from Caracas report that a decisive battle is expected to take place shortly between the rival forces. It seems that the insurgents have been rapidly increasing in numbers lately, and that Crespo is now seriously threatening Caracas itself. Palacios evidently realises that his position is a dangerous one, for he is surrounded by traitors.

In accordance with the provisions of the Uruguayan conversion scheme, $1,011,000 has been handed over for the service of the loan from January 1st to end of March. This amount is equal to £215,200, which is more than sufficient to pay both the quarter's interest on the 3½ per cents and the railway guarantees. The scheme still has its critics, however, as well as its adherents. The former refuse to be modified by the results of the first quarter of the year, and indulge in pessimistic prognostications as to the future, while the latter are highly satisfied, and find the position of affairs much to their liking.

Sir Edward Thornton's estimates at the bondholders' meeting have been actively discussed and compared with the actual figures up to the present time. The optimists rejoice that his forecast has been so nearly borne out, but on the other side it is pointed out that since his speech the position has changed. With the completion of more sections of the railway, the railway interest requirest not £170,000, but £225,000. The amount to be provided for under the conversion scheme was £20,500,000, which, at 3½ per cent, would require £717,000 per annum. Add to this the railway guarantee, at £225,000 per annum, and a total sum of £942,000 per annum is needed. Assuming that the Customs keep up to this quarter's figures, and produce during the whole year £860,000, there is a deficiency of £82,000, instead of a surplus.

The news that Dr. V. de la Plaza has received instructions from the Argentine Government to pay to the Cordoba Central (Central Northern Section) Railway Company the guarantee on the debenture stock, amounting to £91,277, due on March 25th, has been received with much satisfaction. That holders of the stock should be pleased is a matter of course, but the prompt way in which the Argentine Government has met this and other obligations of the same kind is having its effect, and in financial circles in the city more confidence in Argentine good faith is apparent than for some time past. This feeling is also encouraged by the further decline of the gold premium to 239 per cent, and by the result of the elections.

The courts have not yet done with the Murrieta affair. It cropped up again before Mr. Justice Chitty in the Chancery Division of the High Court of Justice on April 8th, when the Imperial Ottoman Bank, which holds some £70,000 of debentures in the company, applied for leave to be added as defendants to the parties in the action of the Debenture Corporation *v.* Murrieta and Company. Mr. Justice Chitty considered that the bank ought to have a voice in the matter, and granted the required order, which was formally made on April 9th. It is said that it will be necessary to call in the outstanding capital of Messrs Murrieta, which amounts to £500,000. This will all have to come out of the pockets of the four original partners.

In the Chancery Division of the High Court of Justice, on April 12th, the Mercantile Investment Company applied to Mr. Justice North, on the part of themselves and other debenture holders, to appoint a receiver of the assets of the River Plate Trust Company, whose counsel set up the defence that they were under no obligations to anybody. Mr. Justice North was of the contrary opinion, but he declined to appoint a receiver as requested, for the very excellent reason that there did not appear to be anything in England to receive, while it would be next to impossible for an English receiver to act in California.

A SERIOUS QUESTION.

On the 28th ult. the National Supreme Court ordered the Province of Buenos Ayres to pay Mr. José Meliton Segovia a sum of money, with interest and costs, due in consequence of non-payment of Treasury Bills. The payment was to be made within ten days. The Government of the Province of Buenos Ayres appointed the Fiscal de Estado, Dr. Luis M. Drago, to represent the province in the case, and instructed him to inform the Supreme Court that the Province intended to adopt efficacious measures to redeem the Treasury Bills. On the 14th inst. the Fiscal de Estado went before the Court and laid before the Judge a lengthy document setting forth the instructions he had received from the Provincial Government.

It may here be observed that this is the third or fourth sentence of the kind delivered by the National Supreme Court. On the other hand, several holders of Treasury Bills have deemed it more prudent to follow another line of policy and to claim lands in payment of the bills, a proceeding perfectly justified by a clause on the back of the bills. A very serious question is therefore cropping up. At present the query is: will the sentence of the Court be carried out, and if so, will similar sentences in other provinces be carried out? It is quite evident that the attitude of the Court will embolden a host of creditors to present their claims.

The *Nacion* comments as follows:—"If the decision of the Court and similar sentences in future be carried out, what available assets are there to embargo? Supposing the sentence to be discarded, will the National Government stand by the Court? Supposing that the National Government refuse to stand by the Court, will diplomatic difficulties arise with foreign powers? Are the provinces to be declared bankrupt?

"The question demands serious study on our part, and the foregoing queries are merely so many standpoints from which the questions may be viewed and examined.

"The Provincial Treasury Bills were issued on enlarged townships and "centros agricolas." It is thought that the Provincial Government will accede to the demands of those holders who ask for payment in State lands."

ASSOCIATION FOOTBALL.

QUILMES A. C. *v.* LOMAS A. A. C.

This match was played at Lomas on Sunday last on the proposed new ground of the L. A. A. C.

The game was well fought throughout, the several combatants displaying great skill and again and again eliciting applause from the crowd of persons who had assembled, and who took a lively interest in the contest.

The play in the first half was very equal, the only point scored being a goal by Lyer for Lomas. After the interval, the Quilmes men, who were a heavier team, began to get puffed, and though they succeeded in scoring a goal (kicked by Lamont); the ball was constantly down their end, and before the finish another two goals had been earned for Lomas by Lyer and G. Leslie.

The following were noticeable for their good play:—For Quilmes, Gordon, Morgan and A. Buchanan; and, for Lomas, Lyer and Reynolds.

Result:—

Lomas ..... 3 goals
Quilmes ..... 1 goal.

RAILWAY ITEMS.

The Board of Public Works has sent a long report to Dr. Araoz, President of the National Railway Board, in reference to the Transandine Railway's plea for an extension of time, owing to the repeated drawbacks the Company has met with since 1887, from cholera, floods, crisis etc. Two thirds of the line (120 kils.) are furnished, and the Company ask 1) that the works for the present be carried only as far as Puntas de las Vacas allowing 15 months to get there (2.) that a further delay be accorded to reach Puente del Inca, and a further delay for the rest of the line till the Chilian tunnels be finished (3) that four years more be allowed for finishing the tunnel section. The P.W.B. consider that the reasons set forth by the company are reasonable, especially the want of capital and the technical difficulties caused by the nature of the ground. The Board advises that the Company be granted a delay of two years to build the line to Puente del Inca, and four years to finish to the tunnel entrance on the Cumbre, the whole delay not to be more than seven years whether the Chilian tunnels be finished or not.

Dr. Araoz, President of the National Railway Board, in reference to the note of the manager of the Ensenada Railway claiming protection against the pretensions of the Provincial Railway authorities, has again written to the Minister of the Interior, begging H. E. to decide the matter.

EDITOR'S TABLE.

The political rumours, the Treasury Bill muddle at La Plata, the yellow fever cases in port and other things put a spring in the heel of the opening week yesterday and made things as lively as they could be under the restraining influences of a state of siege. Neither House of Congress came up to the necessary quorum point, and the public are beginning to feel decidedly squeamish as to what the long delay in opening the National Parliament may mean or lead to. "Quien sabe?"

We publish in another column the programme for the Boys' Orphanage concert next Monday evening. It would be impossible to get up anything more varied and attractive. We hear that the array of pretty girls, big and little, at this concert will surpass everything in the beauty line as yet seen together in our English-speaking community.

Tea, gentle tea. A new concern for dispensing "the cup that cheers but not inebriates" (lots of people with it did) has been opened at 246 Calle Bolivar. The College Tea Room it is called.

The numerous yellow fever cases in port spoiled the appetites for breakfast of the whole population of the city yesterday morning. The Italian steamer America arrived here on Saturday with two passengers dead from the fever and five more in a bad state, one of whom, died soon after, and two more on Sunday making five fatal cases in all. There is another case on board the hospitalship Singapore, and, worst of all, a very suspicious case in the Martin Garcia Lazzaretto. In spite of this sudden appearance of the dreaded scourge of Brazil in our port, there is no great cause for alarm. The weather is too cold for the disease to spread and the Health Board have taken all possible precautions.

Some people expect a political "novedad" in Corboba to-day at the installation of the new Governor, Dr. Pizarro, who is said not to be by any means a white-haired boy with the law-makers of the province. Why? What has the worthy Governor elect done?

The Anarchists have scored again against the Paris police. It is wonderful that not a soul was killed or even scratched by this last explosion.

Still another murder in Santa Fé, at Punta del Sauce. The victim's name is Cabrera, but there are no details of the crime to hand.

There is a old European custom always to be found in a cosmopolitan city, the kissing of the dead just prior to the final closing down of the coffin. There is something very beautiful in the idea of this parting kiss, but the custom is a very dangerous one, and had far bet ter be abandoned. There may be cases in which no harm can possibly result, but when death has been caused by an infectious disease it is impossible to overestimate the danger incurred.

Ola! Salta is a grand place for girls now, not in the way of prospective husbands, but in that of ready cash to buy hats, etc, etc., from the gallant manager of the National Bank there. See our Provincial News column.

There was a run on the bank at San Blas the other day, by the steamer Chilian laden with "black diamonds." The vessel is a total wreck (like the Free and Easy Banks) but all the crew except two were saved.

The biggest fine on record is that imposed on Messrs. Espinetto and others for muddling a stamp in connection with some transaction in National Bank shares—$70,000!! This is a fine to turn the best-dyed hair grey again.

Athletic sports were held by the ship's company of H. M. S. Beagle, at Dos Hermanos, River Paraná, on 5th May, 1892. They were got up by Lieutenant H. H. Bruce, the very energetic First Lieutenant of the ships, and were a great success. The prizes were subscribed by the officers and out of the canteen funds, and at the end of the day were kindly distributed by Mrs. Kenyon. The ground was marked off in the proper way with posts and flags; many ladies were present, and the attendance of natives was large.

In reference to Sir Vicent Barrington's recent philanthropic mission to the Plate, the *Montevideo Times* says:—"The movement to start ambulance classes has, we are pleased to record, been warmly taken up by both lady and gentlemen residents. Whilst applauding their intentions, however, we fail to see what good they can hope to do so long as there continues the barbarous police regulation which forbids an injured or wounded person to be moved or succoured until the arrival of the police doctor."

The very sad news comes from Rio of the death of Dr. del Viso, Argentine Sanitary Delegate there. He succumbed to yellow fever.

At Montevideo last Friday night, at 8 o'clock, while the population were digesting their good, bad and indifferent dinners, the wits were frightened out of the residents near the Hotel Español, in front of which a bomb exploded with a terrific report. "The Anarchists" were the first words on the pale lips of all. The police fussed and fumed about the city all night without being able to discover the perpetrator of the extremely bad joke.

In order to give more time, and longer notice for the convenience of members, the General Meeting of the Lomas Harriers' Club is postponed till Saturday May 21st, at 8.15 p.m.

The *Capital* of Rosario tells of a nice, easy-going old gentleman who passes life's decline there in the harmless amusement of fishing, seated at the end of the Gas Company's wharf. The other day the old buffer sat for hours without getting even a nibble. At last he felt a good bite and got so excited that he tumbled into the river, and his family would have been in mourning to-day but for a boatman near, who pulled the old fellow out of the water heels foremost.

Merchants and shopkeepers, traders and "industriales" of all degrees will find matter to interest them in our new weekly contemporary *La Voz del Comercio*, which can be had free, gratis and for nothing at 1210 Calle Victoria.

Those who are addicted to Terpsychorean exercise in this glorious autumn weather should read the advertizement of the ball of the Anglo-American Society in another column. Dancing, flirting and a good supper are "tres cosas buenas" not to be had every night in the week, month, or year.

Here's some Locust news that should be taken note of for next season:—"In his annual report to the Marquis of Salisbury the Consul at Algiers supplies some interesting information concerning the pilgrim locust, whose usual accompaniments are ruin, famine and pestilence. It was generally believed, and it had been positively stated by scientific specialists, that the locusts died after having deposited their eggs; and this caused the colonists to neglect the destruction of the adult insect. Observation has, however, exploded this theory, and the authorities are now upon the warpath actively engaged in the destruction of this winged insect, whose fecundity is such that in the district of Boghari the administrator reported that on an average there were 800 clusters of eggs to the square metre, each containing 90 eggs, or 250,000,000 eggs on every acre."

The Galveston telegram brings wonderful news from Holland. Nothing less than a perfect cure for that troublesome female complaint hysteria. The remedy is by no means agreeable—frequent applications of red-hot irons—but it is said to be effective. Some husbands and fathers find a bucket of cold water an infallible cure, especially if the patient happen to be wearing her newest dress and bonnet when the attack comes on.

Our friend the *Crutch* has a wonderful lot of funny reading in its last issue. In reference to all the new English papers that are mooted, our colleague says "That whoever comes to light with a venture will find that it's no fun to get a seat in the Editorial switch-back."

We are asked to remind those interested that the Bishop of the Falkland Islands will preach the inaugural sermon of the Buenos Ayres Sunday School Teachers' Association, this evening, in St. John's church, at 8p.m.

Miss Margaret Webster, the favored pianist, who has such a wide circle of friends in this city, will, we understand, give a concert on Thursday evening, June 7th. in the Concordia Rooms. The programme we hope to publish in a few days.

Argentine News of Rosario 'loquitur': "The authors of the horrible tragedy enacted in Villa Casilda a short time ago have been arrested, and are now awaiting trial (!) in this city. It appears that one of the two victims named Rosa Peralta was mother to one of the three prisoners. They regard their fate with indifference, believing that a few days will see them serving in the local fire-brigade."

The conversational powers of the noble Briton.—Young Englishman, after long pause, feels he ought to say something to old lady: "Have you ever hunted the wild ass in Persia?"

Our highly esteemed colleague the *Financial Review* advises us to give up joking and take upon us the serious tone and responsible manner of our namesake in London. Did you ever?

Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to IPS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "A.S.E" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
JOHN KELLIE.
It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.

Saturday, May 14th.
The settlement of the week came off to-day in the midst of a crashing fall; all the bullish positions crumbled like a pack of cards and an intense bearish speculation swept everything before it. Gold seemed to spring from the mosaic floor, and the supply was too great for the bulls. Twenty-five thousand ounces changed hands at the first ring; the price opened very weak at $53.30, fell headlong to 52.70, and closed very heavy at 52.80, say 224½ % premium. Five minutes after the ring there were sellers all round at $52.70 to the ounce. Fifteen hundred sovereigns were sold; the price opened at $16.48 and closed at 16.36, say 224¾ per cent premium. In spite of the heavy bearish speculation going on since the beginning of the week, it was evident that the market was 'long' of gold this morning; there was a suspicion to-day that gold was showered in heavy quantities from certain high quarters, and that telegrams from London announcing a boom in Argentine stocks and shares had something to do with the matter.
Patriotic Bonds were very firm and comparatively active: they opened for cash at 62 and closed at 62.20; for end of June they rose to 62.70. Internal Bonds of 1892 advanced to 53. The fall in gold put all stock and shareholders in a good humor, for even Catalinas rose, closing steady at 7.80. Banco de Italia shares rose to 75 gold and Spanish Bank shares rushed to par. La Plata Cedulas were slightly weaker than yesterday. National Cedulas were very firm.
The following is a summary of the business effected in stocks and shares at the first ring to-day:—

The fast Italian steamer Vittoria will sail on the 18th inst. She will probably make the run home in 18 days.

There was much said on 'Change about the report on the National Bank in Salta published this morning. The inspection going on now in these branch banks shows but too clearly that the grossest irregularities were tolerated and that the administration was most defective. Tis well for the Directors of the Banco de la Nacion Argentina to have these papers before their eyes, as no bank, no matter what its priviliges, could stand where such things were tolerated. Possibly the fever branches the new bank has the better, and the more the Directors limit the business of their bank to this market the better. The Provincial Bank was a prosperous concern enough before it started its 72 branches.

Everyone on 'Change asks:—Why does not Congress meet? There seems to be a hitch somewhere, but the members of the ring are in the dark as to the cause. The impression on 'Change is that politics are at the bottom of the cup.

Exchange rules weak and first-class commercial bills were passed at 47¼ chiefly taken by the banks. First-class bills in francs were done at 5.01¼.

The Nuevo Banco Italiano moved into its new premises at the corner of Calle Reconquista and the Plaza Victoria today. The offices are some of the finest in the city, and far grander than most of the private Banks in London.

It was rumored this evening that telegrams had been received from Europe announcing an unfavorable wool market, in other words a further decline in prices; but this rumor requires confirmation.

Cheques of the English Bank have risen to 4⅛ discount; those of the Provincial Bank were quoted at 51 to 51⅛ discount; those of National Bank at 31¼ discount. Bonos of the La Plata Mortgage Bank were in demand at 15½ %, say 84⅛ discount.

Mr. Lazaro Repetto, the well-known saladerista, sold to-day 1000 salted cow hides of 23 kilos at 10$ per 100 kilos. Buyer, Messrs. Bracht and Co.

A great push was made this afternoon to push gold high above 53$ to the ounce, but it failed. All the pessimist news of the morning was revived, and a bullish feeling was rampant at the beginning of the second ring, prices reaching 53.20$, but the market weakened as the day grew and closed under 53. Over eight thousand ounces were sold for to-morrow: opening at 53.20$, the price fell to 52.80, and closed at 52.90, say 225% premium. Sovereigns were neglected: only 200 were sold at 16.45$, say 226.38% premium.

Patriotic Bonds were very active in the afternoon: a quarter of a million at least were sold for to-morrow and end of month: prices for to-morrow opened at 63, fell to 62.50 closed at 63.20. Internal Bonds rushed like a wave to 56½; evidently some good news in the wind. Catalinas fell to 7.80 and closed at 8 for for to-morrow and end of month. Bolsa Building shares were quoted at 125. Spanish Bank shares were sold at 102; these shares have advanced steadily for the last three weeks, and the advance reflects the great increase in the bank's working and its good management. French Bank shares were sold for to-morrow at 38 gold and Credito Real were done at 28. La Plata Cedulas continued dull and weak.

The agency of the Chargeurs Reunis Company received to-day a telegram from Rio announcing that the steamer Parana, during a thick fog, went aground off Cape Frio; the steamer has suffered no injury and there are hopes of getting her off easily. The agent of the Company in Rio left in the Ville de San Nicolas for the spot and to drag her off. With regard to this accident the most absurd and exaggerated reports were spread on 'Change this afternoon. The passengers and crew of the Parana are safe and sound.

The Minister of Finance has fixed the rate of gold at 316 for payment of Customs dues.

Writing about the free and easy manner in which joint-stock companies and real-estate speculators parcel out lots of land to farmers and colonists, regardless of mortgages and imminent foreclosures that invalidate the claims of those buyers of small lots, our colleague the *Buenos Aires Handelszeitung* makes the following remarks, which farmers and small capitalists should bear in mind and study:—

"Large sales offer no difficulty as the public deed protects them, but such is not the case with the sale of lots, quintas, chacras, and farming concessions.

"The owner who endeavours to double the value of his property by parcelling it out must sell at long dates: this is what happens in the provinces of Buenos Ayres, Santa Fe, Cordoba, and Entre Rios. The seller gives no title-deed, as he does not wish to run the risk of litigation arising from non-payment of cuotas on the land.

"The owner sells by so-called 'boletos' which are handed after payment of the first quota, stipulating instalments over several years and promising final deeds at payment of last quota. The serious phase of this business is that lands are sold in this fashion with deficient titles or burdened with mortgages; or these 'boletos' are issued when foreclosure is impending: when the confiding colonist has paid his last instalment he finds that he must receive a bad title deed or that there is a mortgage on the land or that the owner is under foreclosure." There is much truth in the above and colonists should heed the warning and take steps not to be defrauded.

Messrs. W. Samson & Co. have received advices from Captain James Taylor that the barque 'Chilian' has been wrecked on a bank on the North East Bank of San Blas, Patagones, and that all the crew were saved with the exception of Brown and Miller, A.Bs. The Chilian was an iron barque of 601 tons register belonging to Messrs. Donaldson Brothers, Glasgow, and sailed with coals in the month of March from Cardiff to Iquique.

Messrs. Bravo Barros and Co. sold by auction yesterday the following properties:—

CHARLES OLMI
One of the most
NOTABLE SETS OF FURNITURE
In the country.

A splendid collection of oil paintings by Armenise, Bochini, Carcano, Coleman, Mancini and other artists of universal fame.

A small collection of fire-arms, the remains of the most notable one ever seen in this country.

Carpets, chandeliers, curtains and furniture for bedrooms, drawing-room, study and dining-room, all of the costliest kind. In fact, they must be seen to be fully appreciated. The articles are more comfortable than regal; more varied in style than elegant, and are characteristic of the great man to whom they at one time belonged. Everything is rare, original and eccentric.

On Tuesday May 24th
at noon sharp

I will sell at public auction by order of the owner, Don Eduardo Perie, the splendid collection of furniture that formerly belonged to the late Don Jose Paul y Angulo, and which will be sold in the house in which the lamented politician lived.

VENEZUELA 655 (altos)
(between Peru & Chacabuco)

The house will be open for inspection from Saturday 21st inst., so that those interested can inspect its contents at their leisure. As it is quite impossible to give complete details in this advertisement Catalogues containing them will be published.

I strongly recommend this exceptional household furniture; everything is good and in excellent preservation.

There is a magnificent drawing-room, three bedrooms, plated ware, glass etc etc.

It is necessary to see this residence of the deceased Spanish Revolutionist, at 655 Venezuela.

The auction will take place on

Tuesday the 24th of May
at noon
